### **Love Is... Receives COVID-19 Emergency Response Grant**

VALLEJO, CA, July 6, 2020 - We at Love Is... are so proud to announce that we have been graciously awarded \$10,000 of the COVID-19 Emergency Response Grant from the Solano Community Impact Fund, a component fund of [Solano Community Foundation](#).

COVID-19 Emergency Response Grants will support Non-profit partners who provide essential health care services and protect at-risk populations as "second responders" during a crisis such as the one we're experiencing now.

Many of our local seniors have had to make great sacrifices in order to feel safe in their homes during the pandemic, all while facing significant financial hardships. Seniors are at high risk to catch COVID-19, but face the daily challenges of gathering supplies or continuing to work in order to survive. With this grant we will begin a project to include providing safety kits to our at-risk senior community, building a foundational crisis prevention in our senior homes, and to provide the most basic protective gear for seniors to travel outside, be it for food or other important resources.

“While we are most known to our seniors during the holiday season this grant has opened up the opportunity to remind them that we, and the community, are still here for them throughout the year,” says Lynn Castro, board president of Love Is...

Though it is important to us at Love Is... to continue including our seniors in our community, we are prioritizing creating ‘safety kits’ for the impending emergency caused by COVID-19 and quarantine. Love Is... would like to aid as many seniors in Solano County as possible, but will begin our focus at two Vallejo senior living facilities that we have had a close relationship with, Marina Towers Annex and Legacy Senior Home. Any additional funds secured would be allocated towards creating more safety kits for the remaining seniors in our program.
